

THE HATCH BILL IS
READY FOR ACTION.ANTI-OPTION MEASURE IS COM-
PLETED.

Amount of Tax Increased—Cabinet Considers the Bland Bill—House Honors the Memory of Louis Kossuth—New Counterfeits in Circulation—Washington News.

WASHINGTON, March 24.—The anti-option bill was completed yesterday and will be reported back to the house on Monday. But two sections remained uncompleted when the committee met. The rest of the bill was completed early in the week and published. The two sections refer to the amount of tax to be put on the various articles embraced in the bill and the places of business of the dealers. The tax section provides a tax of 1 cent on every 1,000 bushels of grain, and 1 cent on every 10,000 pounds of cotton, pork, lard, bacon, hops, salt and pickled meats dealt in. The above tax is to be assessed in all deals, genuine or "wind." In all "wind" deals, or deals "settled otherwise than by actual sale or delivery" there is an additional tax of 1 cent a pound on all articles in the list sold by weight, 3 cents on every bushel of wheat and 2 cents a pound on every bushel of other grains in the list. The section referring to the "precise place of business" is amended by eliminating "precise" and substituting "principal" and by inserting a provision compelling the dealer to notify the internal revenue collector when he is going away to do business and tell him where he is going. Twelve members of the committee were present. Ten voted for the bill. Apsley of Massachusetts and Baker of New Hampshire voted against it. Mr. Baker, though a member of the grange, says he voted against the measure because he thinks it is unconstitutional. Such is the bill which Colonel Hatch early in the week said would be remodeled in committee on lines suggested by the representatives of the boards of trade, produce and cotton exchanges of the country.

FILLIBUSTERING IN THE HOUSE.

Question of Consideration Raised in the
O'Neill-Joy Contest Case.

WASHINGTON, March 24.—Although yesterday was Good Friday, the house met as usual at noon. Mr. Sayers presented for immediate consideration a joint resolution appropriating \$10,000 for the salaries and expenses of additional deputy collectors of internal revenue to carry out the provisions of the Chinese exclusion act, as amended by the joint resolution passed Dec. 7 last.

After the transaction of other routine business the struggle over the O'Neill-Joy contested election case from Missouri, was resumed. Mr. Waugh (rep.) of Indiana immediately raised the question of consideration against the report of the committee and the filibustering began.

The republicans repeated their former tactics by refusing to vote. The result of the vote was 160 to 1, which showed the democrats were eighteen short of a quorum. A call of the house followed. It being apparent that a democratic quorum could not be secured, it was decided to abandon the case until next week.

The house went into committee of the whole to consider the military academy appropriation bill. The amount carried by the bill was \$400,438, against \$432,546 for the current year. The original estimates for the next fiscal year aggregated \$599,463. They were reduced by the secretary of war to \$463,149.

Mr. Henderson (N. C.) then moved that the house go into committee for consideration of the postoffice appropriation bill. Mr. Reed called attention to the fact that there was evidently no quorum present, the motion was withdrawn, and the house took a recess, the evening session to be for the consideration of pension business.

Several private pension bills were passed at the night session, the house adjourning at 10:30 o'clock.

New Counterfeits in Circulation.

WASHINGTON, March 24.—The secret service of the treasury department has discovered that there are two new counterfeit government bills in circulation. One is of the \$2 treasury note and the other is of the \$1 silver certificate. This is the first counterfeit ever found of the \$2 treasury note. It is of the series 1891, check letter "C." W. S. Rosecrans, register, E. H. Nebecker, treasurer, portrait of McPherson. The \$1 silver certificate counterfeit is series 1891, check letter "A."

Cabinet Considers the Bland Bill

WASHINGTON, March 24.—The time of the cabinet meeting yesterday was principally devoted to considering the Bland seigniorage bill. The veto message, if the President so decides, may be sent to the house to-day, but the President will probably hold it back till the ten days have nearly expired. It may not be sent in until Wednesday.

To Restore the Sugar Bounty.

WASHINGTON, March 24.—Senator Hansbrough of North Dakota is preparing an amendment to the tariff bill restoring the present bounty on sugar and placing a duty of 6 per cent ad valorem on refined sugar. He thinks it will receive the support of all republicans, the populists and the two Louisiana senators, which will carry it in the senate by a majority of 1 vote.

Reclamation of Arid Lands.

WASHINGTON, March 24.—The senate committee on public lands will probably soon take up Senator Carey's bill granting to each of the arid land states and territories a million acres of the public lands to be sold to settlers in lots of 160 acres each. The secretary of the interior and commissioner of the general land office indorses the bill.

House Honors Kossuth.

WASHINGTON, March 24.—The house, on Mr. Cummings' motion, adopted a resolution of regret at Louis Kossuth's death requesting the speaker to express sympathy to the family.

CASH FOR COXEY'S ARMY.

Admirers of the Movement Contribute
\$1,411 to the Commonweal.

MASSILLON, Ohio, March 24.—J. S. yesterday Coxe received in cash and checks the sum of \$1,411, to be devoted to furthering the commonweal.

To-day the commonweal tent will be erected and the army will begin to take outward and visible form. It is learned that no contracts at regular or excursion rates have been made with the railroads for the transportation of soldiery either here or elsewhere. J. H. Walcup, an employee of the Keystone Detective agency of Pennsylvania has arrived in the city and intends to join the Coxe army. Walcup was recognized as he left the train, and when accosted refused to talk further than to admit that he intended remaining with the army throughout the entire march to Washington, his object being to arrest the ringleaders in the case of riot or disorder.

WASHINGTON, March 24.—People here are beginning to feel alarm over the prospective invasion of Coxe's army. This alarm has grown to such proportions as to cause the militia commanders to issue frequent emergency calls. Col. Moore last night explained his purpose by saying: "There is a threatened invasion of the district by a socialistic army and I want to show congress how soon, if it should be wanted, the national guard can be massed to support the police in dealing with the disturbance."

It is understood, too, that the secretary of war has given to prominent citizens his assurance that the federal troops in this vicinity will be held in readiness to suppress any disturbance. Coxe's friends here are still confident the movement will not be productive of disorder.

It is now said that the proposed demonstration of the army on the steps of the capitol will not take place, as it will be necessary to first secure authority from congress, as there are specific acts upon the statute books forbidding the assemblage of crowds in the capitol or in the capitol grounds for the holding of any sort of public meeting except the sessions of congress and the assemblages which are incident to the inauguration of a president. Only on the occasion of inaugurations are people permitted to overrun the grounds.

Virginia Village Almost Burned Up.

BALTIMORE, Md., March 24.—The village of Money Point, just outside Norfolk, Va., was almost destroyed by fire which broke out in the sheds of the Roanoke Lumber company and raged fiercely from 1 to 10 o'clock p. m. Only six houses are left standing in the village and the loss will foot up least \$300,000. The total insurance is \$200,000.

Slayer of Two Men Under Bonds.

HAMMOND, Ind., March 24.—Albert Looker, who shot and killed James Conroy and William Cleary, the Tolleson Hunting club's game wardens, in a saloon Wednesday evening, was arraigned here yesterday. The prosecuting attorney said the state had made no investigation, and asked that Looker be placed under bonds. "These were fixed at \$500, which was quickly furnished by Looker's friends."

Inventor George C. Baker Dies.

WASHINGTON, March 24.—George C. Baker, the inventor of the submarine torpedo boat, died in this city yesterday afternoon. The remains will be taken to Des Moines, Iowa, his former home, where the interment will be made Monday or Tuesday.

Iowa School Building Burned.

KNOXVILLE, Iowa, March 24.—The west ward school building caught fire yesterday from sparks falling on the roof. The second story was gutted, with nearly all the contents. The loss is about covered by insurance of \$8,800.

Congressman Wilson Is No Worse.

SAN ANTONIO, Texas, March 24.—Congressman Wilson spent a restless night and is in a weak condition, but Dr. Underwood reports that no unfavorable conditions have arisen and that his patient is no worse off than when he arrived here Thursday.

Cholera at Constantinople.

ATHENS, March 24.—The government has received a telegram from Constantinople stating that nine cases of cholera, three of which proved fatal, have occurred in that city within the last few days.

NEW YORK, March 24.—Little was taken up by the senate yesterday. The loss of the Kentucky on the Honduras route to New York, March 24.—Little was taken up by the senate yesterday.

BUSINESS LARGER
BUT PROFITLESS.DUNN REPORTS THAT TRADE
IS PROFITLESS.

While the Volume Is Large the Expected Profits Do Not Appear—Cotton Shipments From the Plantation Large—Failures For the Week—Prices go Lower.

NEW YORK, March 24.—R. G. Dunn & Co.'s weekly review of trade says: It is perplexing to be obliged to report that business grows larger in volume and at the same time not more profitable. Uncertainty does not diminish, but has rather increased in the judgment of many commercial bodies which have urged the President to veto the seigniorage bill. Prices of commodities do not rise, but are on the whole about 1.5 per cent lower than last week, though then the lowest ever known in this country, and are 12.9 per cent lower than a year ago.

More mills are at work, though the proportion of productive force unemployed is still from a fifth to a third in different branches of industry, and many mills are stopping because their orders have run out, even while a larger number are starting with orders enough for a time.

The demand for cotton goods is fairly large, but with reduction in prices of some grades and the accumulation of print cloths continues. Sales of wool for three weeks have exceeded last year's 23.9 per cent, though transactions this month last year were about 40 per cent below the average. There is more demand for such wool as is needed in the manufacture of underwear, dress goods and worsted suitings, but fine fleeces are almost unsalable, and carpet manufacturers buy sparingly, though about half their machinery is active.

Wheat, cotton and pork have declined a little, wheat making another record a shade below 60 cents at New York. Western receipts are 1,598,379 bushels, against 2,545,709 last year, and exports only 1,013,209 bushels, against 1,295,894 last year, showing that even at current prices the grain is not largely wanted abroad. Corn was a cent stronger, with western receipts 2,874,698 bushels, against 1,933,322 last year. Cotton receipts from plantations are again larger than last year. The close of the rebellion in Brazil opens a new crop of coffee, which is reported very large, but prices are as yesterday. Cattle are low abroad and the exports are retarded.

There is encouraging increase, the first for many months, in east-bound tonnage from Chicago, and at Indianapolis the movement is almost as large as last year, while west-bound tonnage of high-class merchandise is also large.

Failures for the week ending March 15 involved liabilities of only \$2,558,818 and for two weeks of March only \$4,845,110, of which \$2,330,257 were of manufacturing and \$2,446,069 of trading concerns. Some deferred reports will further swell the aggregate, but at San Francisco the resurrections reported exceed the failures. A number of railroad receiverships are noticed, though none of importance. The failures this week number 244 in the United States against 219 last year, and 50 in Canada against 26 last year. It is noteworthy that Canadian failures are considerably increasing.

DENVER CONTEMPT CASE.

Col. John Taylor Completes His Argu-
ment at Denver.

DENVER, Colo., March 24.—The feature in yesterday's contempt proceedings was the argument of Col. John Taylor for the prosecution. Mr. Taylor wanted Mr. Rogers arrested and punished for contempt with Mayor Van Horn and Commissioners Barnes and Mullins. Mr. Rogers concluded the argument and the case was given to the court late in the day. No decision is expected for several days. Measures to insure the safety of the city should another outbreak between the warring factions take place were talked over, and it was finally agreed that everything that was possible would be done to prevent a clash.

Five Injured in a Railroad Wreck.

LULING, Texas, March 24.—A wreck occurred on the Lockhart branch of the Missouri, Kansas & Texas railroad near Dale at daybreak yesterday morning. James Benkford, inspector of Wagner Car company, had his head cut; N. B. Carter of Henryville, Md., leg cut; Mrs. E. A. Cowan of Boston, Mass., internally injured; Tom Rogers of Gainesville, scalp wound; W. D. Tiffen of Kansas City, Mo., back hurt. The whole train with the exception of the engine left the track and rolled down an embankment.

Mad Riot of Strikers at Key West.

KEY WEST, Fla., March 24.—The cigarmakers are again on a strike. Yesterday they made their demands on Mr. Seidenberg, and when he refused to grant them the strikers attempted to mob Seidenberg and smashed all the windows of the factory. The police after a sharp conflict scattered the mob. Several men were badly injured.

Second Storm Raging in the West.

DEADWOOD, S. D., March 24.—Two trains came in yesterday on the Elkhorn and one on the Burlington & Missouri, virtually opening the blockade. Another storm set in in the afternoon at 4 o'clock.

HINT AT FOUL PLAY
UP IN STOUGHTON.HOW WAS DICK OLSON, A LUM-
BERMAN HURT.

His Friends Say He Was Kicked By a Horse But the Explanation Does Not Seem to be Satisfactory—Found Senseless in a Livery Barn Stall.

STOUGHTON, March 24.—Hostlers in O. F. Tipple's livery barn found a man lying in one of the stalls under the feet of a horse, and another man endeavoring to haul him out. The latter explained that they had wandered into the back door of the stable, and that his companion had been kicked by a horse. Both men were drunk. Foul play is hinted at. The man's watch and a sum of money are said to be missing. At the Grand hotel a few days ago the man had registered as Dick Olson, and claimed to have lately left the pinery regions. His injuries are dangerous and he is quartered in the Revere hotel.

STRIKE WILL SURELY RESULT.

Conviction Grows That Conference Can Come to No Agreement.

OMAHA, Neb., March 24.—Though many of the representatives of the labor organizations have denied the published statements that they would strike if favorable action was not taken either by the receivers or the court upon a fair and equitable schedule of wages for the employees within the present week it is absolutely true as printed. The men are decided, and if their demands are not granted the entire Union Pacific system will be tied up in a strike just as soon as the constitutional provisions of the various organizations will permit. The men see that the conference has resulted in no good whatever, and are positive that it can result in no concession to the men as Receiver Clark now stands upon the question. There was little new in the conference yesterday and the wage question still stands virtually where it was when the conference began. It is conceded the matter will rest as it is until it can be brought before Judges Caldwell and Sanborn Tuesday. The conference will end to-day. The firemen submitted their schedule to Mr. Clark and were informed that it was not acceptable.

A petition is being circulated along the entire Union Pacific system asking that the American Railway Union and the Knights of Labor be recognized by Receiver Clark and the other officials of the Union Pacific. These petitions are being sent to Omaha and will be presented to Mr. Clark, and if they are not accepted they will be filed in the United States court and thus be brought before the United States judges for action.

WILL RESIST THE REDUCTION.

Eastern Illinois' Employees to Demand
the Old Scale's Restoration.

BRAZIL, Ind., March 24.—The employees of the Chicago and Eastern Illinois met in secret session yesterday and it is claimed made final arrangements to resist the proposed reduction. The employees were indignant over the article which recently appeared in Chicago papers in which the Chicago & Eastern Illinois officials were reported as saying the reduction was agreeable to the employees and that no trouble would occur. The fact that the officials made the cut without consulting the employees has greatly incensed the workmen. A committee of the workmen will meet the officials soon and unless the old scale is restored a strike is almost a certainty.

Miners May Start a Great Strike.

PITTSBURG, Pa., March 24.—President John McBride of the United Mineworkers of America has issued a circular calling for the fifth annual convention of the organization, to be held at Columbus, Ohio, commencing April 10. At that time a "national movement" will be considered. This means the total suspension of work by miners throughout America from Colorado to eastern Pennsylvania. If adopted and a date set the greatest strike in the history of the miners of America will be inaugurated.

Brewers Getting Used to the Boycot.

ST. LOUIS, Mo., March 24.—The statement in a dispatch from Philadelphia that certain St. Louis breweries are to be subjected to a boycott is causing no anxiety here, as for nearly a year the breweries of St. Louis as embraced in the English syndicate purchases of some years ago, or all in the city but two, have been undergoing that infliction.

Hosiery Works Shut Down.

LOWELL, Mass., March 24.—Owing to the depression in the hosiery business the Pickering hosiery mills will close indefinitely. When running full force about 400 persons are employed.

Lumber Mill Resumes.

WASHBURN, Wis., March 24.—The South Shore Lumber company's mill begins its season run to-day with 200 men. Wages range from \$1.50 to \$2.50 per day.

Fire at Ottawa, Ont.

OTTAWA, Ont., March 24.—Fire nearly destroyed the government printing bureau in the parliament building. The bookbinding department was reduced to ashes. The loss will be heavy.

DYNAMITE EXPLOSION.

Five People Killed at Black's Run,
Pennsylvania.

PITTSBURG, March 24.—The dynamite works of the Acme Powder Company, at Black's Run, a mile and a half above Hulton, on the Allegheny Valley railroad, were destroyed by an explosion at 7 o'clock yesterday. Five persons were killed and one badly injured. The works were blown to pieces and buildings in the vicinity wrecked, windows broken and people within a mile terrorized. Of those killed two were men and three women. The names of the dead are:

MOLLIE REMALEY.
SADIE REMALEY.
NELLIE REMALEY.
WILLIAM L. ARTHUR.
SAMUEL REMALEY.

Mrs. WILLIAM ARTHUR was badly injured.

It was first reported that ten or fifteen persons had been killed, but as far as known all the others have been accounted for. The plant consisted of four brick buildings. These, with the Remaley boarding house, are completely demolished, nothing being left on the hillside but a pile of debris, which took fire and burned fiercely for hours. The cause of the explosion is not known. It is supposed that a workman entered the building with a light, contrary to orders. There were 10,000 pounds of dynamite in the works at the time of the explosion. The loss was \$15,000. The plant will be rebuilt at once.

BIG SHORTAGE AT ALBANY.

It Is Reported That \$1,500,000 Is Missing
From the Comptroller's Office.

ALBANY, N. Y., March 24.—It is reported here that a discrepancy of \$1,500,000 has been discovered in the books of the state controller's office by the accountants, who are now investigating the books. As the work of the accountants is not completed no definite report has been made. As far as can be learned the rumor originated in the fact that the taxes assessed by law against corporations are charged to them on the books of the controller's office, and that many of these corporations never pay their taxes until they are compelled by law.

British in Control at Bluefields.

NEW ORLEANS, La., March 24.—The condition of affairs in Bluefields, Nicaragua, is as unsettled as ever. The English are still in practical control of the entire reservation. Lacayo remains at Bluefields and refuses to vacate, but his position is not recognized and the Americans continue to ignore his demand upon them for payment of the shipping dues.

PROVINCETOWN, Mass., March 24.—A letter received here from Capt. E. T. Ryder, formerly of this place, but now a resident of Bluefields, Nicaragua, says only the arrival of the British war ship Cleopatra saved all American and foreign residents of the place from being killed.

Rates for the G. A. R. at Pittsburg.

PITTSBURG, Pa., March 24.—The citizens' executive committee of the Twenty-eighth national encampment G. A. R., which meets here next September, has issued a circular informing G. A. R. members that hotel rates with a three days' limit can be secured from \$1.50 to \$5 per day, lodgings from 50 cents to \$1 per night and railroad rates from one fare for the round trip to 1 cent a mile. Free quarters will be furnished in school houses and other buildings upon application.

Incensed Bridegroom Kills a Boy.

BIRMINGHAM, Ala., March 24.—William Ingraham, a young farmer, was married near Evergreen last night. He and his bride were serenaded at midnight by a band of villagers with horse fiddles, horns and tin pans. Ingraham became incensed at the joke and rushed out of his house with an ax, which he threw into the crowd of serenaders. It struck a small boy named James Dixon and cut his spinal column through. The boy died.

Chippewas Threaten an Outbreak.

MINNEAPOLIS, Minn., March 24.—Reports from Mille Lacs reservation indicate that there is some possibility of an outbreak among the 900 Chippewa Indians there. The cause of the rumored trouble is the attempt by the Indians to collect sugar from old sugar bushes formerly theirs but now on land held by settlers.

To Legalize Washington Racing.

WASHINGTON, March 24.—The senate district committee agreed to favorably report a bill allowing spring and fall meetings of eighteen days each at the Ivy City and Benning's race tracks. Under the Engeman decision racing in the District of Columbia was declared barred by statute.

Justice Jackson Recovering.

WASHINGTON, March 24.—Letters received from Justice Jackson of the Supreme court of the United States, who is now at Atlanta, Ga., say that his health is much improved, and that he will return to Washington about April 1 and resume his place on the bench.

Martin Howley Sentenced.

FORT WAYNE, Ind., March 24.—After deliberating all night a jury returned a verdict of murder in the first degree against Martin Howley for murdering his mother. Punishment was fixed at ninety-nine years in the penitentiary.

Iowa Legislature.

DES MOINES, Iowa, March 24.—The good-roads bill was lost in the senate yesterday, only 22 voting in favor of passage. The house adopted a resolution providing for final adjournment April 6.

TOWN SET ON FIRE
BY A BAD BOILER.LIVES AND PROPERTY LOST
NEAR ELGIN, ILL.

Boiler in Hager's File Mill Explodes Killing One Man and Injuring Four Others—Fire Brands Are Scattered About Town By the High Wind Which Prevailed.

ELGIN, Ill., March 24.—Fire came near sweeping the little town of Gilberts off the face of the map to-day. The blaze started from the explosion of the boiler in Hager's file mill.

One man was killed, and four more badly injured. There was great excitement, as a high wind prevailed, and spread the flames about town.

MURDERED THE CASHIER.

A Herick Shot at San Francisco by a
Man with a Doubtful Check.

SAN FRANCISCO, Cal., March 24.—A man entered the branch office of the San Francisco Savings union at the corner of Market and Fell streets about 10 o'clock yesterday and presented a check to Assistant Cashier A. Herick. After examining the check Mr. Herick, having doubts as to its genuineness, returned it. An altercation ensued between the man and cashier, during which the former drew a pistol and fired several shots in rapid succession, killing Herick almost instantly. The porter of the bank made an attempt to disarm the murderer, who immediately turned his weapon upon him, but fortunately the assassin's aim was wild and the bullets failed of their work. The murderer fled from the bank, pursued by the police and a crowd which had been attracted to the scene by the shots. He only got a short distance away before being captured. The murderer gave the name of Fred Borneman, and the police said he arrived here last week from Denver.

Later developments show that the paper presented to Cashier Herick by his murderer was a note written in red ink stating that the bearer should be given money or he would blow up the place with dynamite. On the bottom was drawn a skull and crossbones. The first shot fired by the assassin went wide of the mark and Herick reached for his revolver. The cashier fired at the man, but missed; then the fellow shot a second time and the bullet entered the cashier's head, causing instant death. C. F. Melvin, paying teller, also took a hand in the shooting, firing two shots at the assassin, both of which missed.

STUDENTS ARE ANGRY.

Compel Buda-Pesthites to Display Mourning
for Kossuth.

BUDA-PESTH, March 24.—There is considerable excitement among the students and others who took part in the riotous demonstrations against those citizens who had not displayed emblems of mourning in honor of Louis Kossuth. During the invasion of the theaters by the students more than twenty people were more or less seriously injured. The police have made several arrests and further trouble is anticipated. As a matter of protection there is a great and increased display of mourning emblems, as the citizens who do not make such an exhibition of respect are almost certain of having their windows smashed by the students.

The students have announced their determination to compel people of all classes to show respect to the memory of the general, and opposition to their will, backed up as they are by crowds of sympathizers among the masses, is liable to cause serious disorder. The police, in order to avert further rioting, are advising people not to run the risk of incurring the animosity of the students and people who are now stirred up to a state of great excitement by the death of Kossuth.

In spite of the fact that all the police force of Buda-Pesth and the neighborhood is on duty here, and though re-enforcements of police have been drafted here from neighboring cities, the authorities find the greatest difficulty in preserving order. The officers in charge of the police were instructed to do everything possible to prevent a violent outbreak, as it is feared that any conflict will result in considerable bloodshed.

Against Heavier Guns.

WASHINGTON, March 24.—Chairman Cummings of the committee on Naval Affairs is opposed to the building of anything larger than the 10-inch gun for naval purposes. One of his objections to the larger guns is that they require delicate machinery for their handling and the dropping of a six-pound shot in this machinery while in action would render the gun useless. He also claims that the recent trials of 10-inch guns at Indian Head have proved that they are able to demolish any armor plate made.

Walking Across the Continent.

LAMAR, Colo., March 24.—Charles Randall, a young man having credentials from an athletic club in New York, arrived here last night. He is walking from New York to San Francisco upon a wager between two athletic clubs and is to cover the distance in ninety-seven days, walking ten hours each day for six days a week.

SMITH MEN ACTIVE AT MILTON.

So Voters Are Urged To Get Out the Full
Republican Vote.

MILTON, March 24.—Our readers
who are interested in the election of
Judge Bennett, should make it a point
to see that every vote for their candi-
date is polled. In this precinct elec-
tors vote for judge here and for town
officers at Milton Junction. See to it
that your republican neighbors vote
for judge in this precinct before they
go home. The supporters of Candi-
date Smith are wide awake, and none
of them will fail to deposit his ballot.
Coon & Shaw have rented the room
formerly occupied by Babcock & Green
in Goodrich's block, and will move
their furniture stock there at an
early date. The weather this
week is more like March, better
for ducks than humanity. Mrs. D. M. Johnson of Nile, N. Y.,
who has been spending some months
with Milton friends, returned home
Tuesday. W. P. Clarke has the finest
stamp collection in town and includ-
ed in it some rare American issues.
Polls for the judicial election in this
precinct will be held in number two,
Goodrich block. Du Lac lodge will
have work in the first degree Monday
evening. Visiting brothers welcome.
The Soverhill ware house has not been
working many hands so far this week.
A petition is being signed, requesting
Rev. Richard Miller to continue as
pastor of the Congregational church
for another year. We understand
that over seven hundred dollars has
already been pledged toward his sal-
ary, should he consent to remain. A
man was in town this week, from
Whitewater, trying to rent a room in
which to put in a stock of furniture.
At the Greenman Michelson auction
Tuesday, stock and other ar-
ticles brought good figures.
Dr. D. B. Collins, of St. Peter, Minne-
sota, made his friends in this village
a brief call Wednesday. He has been
taking a special course of lectures at
Rush Medical College, Chicago, and
was en route home when here. Rev.
E. M. Dunn delivered his lecture on
"Marriage" at Shopiere Wednesday
evening. Mrs. W. W. Clarke is on the sick
list at present, but is improving. The
A. D. Hamilton Relief Corps enjoyed
a social at Post Hall Wednesday.
Clarke & Crumb are working twenty
hands in the north tobacco warehouse
on farmers' crops. Mrs. G. M.
Cottrell has decided not to
make this village her home.
Mr. Babcock and wife of Garwin,
Iowa, arrived in the village this week
and will occupy the "Post" house on
Madison, avenue. W. B. Maxson, of
Maxson & Crosby, has moved into the
house with Mrs. E. H. Carey. Mrs.
Root, of Whitewater, is visiting Mrs.
D. B. Wood this week. Miss Anna
Tompkins of the Milwaukee public
schools, is home for a week. W. H.
Ingham, with the "Happy Home",
clothing manufacturers of Chicago, is
enjoying a "rest up" for two months.
F. A. Saunders attended the Madison
meeting of the Retail Lumbermen's
association this week. Miss Imogene
A. Dunn is the guest of her sister, Mrs.
Prof. Humphrey, at Whitewater, this
week. Darroin Brown is hunting
ducks at Koshkonong this week. He
will be in big luck if he finds "em."

TIFFANY PLANS A NEW CREAMERY
Burned Structure May Be Replaced By a
Co-operative Concern.

TIFFANY, March 24.—A meeting of
all who desired the establishment of
a co-operative creamery at Tiffany is
called to meet at the store to consider
and act upon the matter. There is
already a charter under which such an
association can work. Mr. James Hag-
gart offers the site, well and \$150 to
start with, and others offer to take
from \$100 to \$200 stock. The meet-
ing is called for Monday, March 26,
at 2 o'clock. Mr. Dunn's lecture at
the Congregational church on Wednes-
day night was well attended. The
best compliment we can pay the
speaker is to say all were highly
pleased and want him to come again.
Some barley and other products are
being shipped from this station.
Seeding has commenced on some
farms. Rather wet as yet. Eggs
are eight to nine cents a dozen in the
local markets, cheapest price for
many years. The tobacco acreage
the coming year will be greatly di-
minished. Farm hands are engag-
ing at reduced wages for the season.
Fishermen men should not forget the
law against catching bass and pickerel
out of season. It may cost them heav-
ily for a fish or two. Another lot of
cows was auctioned off at S. Van Gal-
der's farms this week bringing good
prices. They came from Iowa. Dan
Spicer has engaged with a butter
factory in Illinois. Dan leaves lots
of friends here who wish him success.
George Culver moves to the village
next week. All are glad to have him
return.

Dorothy A. Clarke.

Dorothy Airis Clarke, wife of James
Clarke, of Rushville, Neb., died at the
residence of her brother E. H. Airis,
at Hooper, Nebraska, and the remains
were brought to this city to-day and
interred at Oak Hill cemetery. She
leaves a husband and four children to
mourn her death, besides other rela-
tives and friends. Mrs. Clarke was
sixty two years of age, and had one
brother who lives at Mount Zion, S. S.
Airis. Mrs. Clarke was an old resi-
dent of Rock county. The past twelve
years she had lived in Nebraska. She
enjoyed the love and confidence of a
large circle of friends, who will sym-
pathize with the family in their be-
reavement. Mr. Clarke will be re-
membered as a miller in Janesville
during the seventies.

NEW WRAP TO MATCH SPRING COSTUMES.

GAZETTE'S PATTERN OFFER
INCLUDES THE "HELENA."

Garment Devised Especially For the
Puff Sleeves That Are So Much
Worn—Velvet, Corded Silk and
Moire Are the Materials Most Fa-
vored For This.

So long as large sleeves and full
shoulder trimmings remain in vogue,
a wrap that will not crush them and
can be easily adjusted must continue
in favor. The prettiest and most con-
venient, as well as becoming to all
ages, is in a circle shape, short, with
ample fullness, and trimmed with
elaborately about the neck and shoul-
ders. Such a garment is the "Helena."
Velvet, corded silk, and moire are the
most modish materials for these wraps,
but they are quite as frequently made
of cloth or camels hair and trimmed
with white or black lace or insertion,
or some of the handsome passementer-
ies or spangled galloons. Wraps made
to match costumes are growing in
favor and are both stylish and useful.
The illustration represents heliotrope
faced-cloth lined with changeable
silk; the upper cape is of changeable
moire, black and purple, and is
trimmed with jet passementerie. The
scarf is made of silk furnished with
jet and lace; but satin ribbon is quite
as frequently used, although not so
dressy as the scarf.

Half of the pattern is given in three
pieces: cape, shoulder cape and collar.
Lay the shoulder cape in plaits turned

toward the back on the outside, ac-
cording to the holes. Lay the back
of the collar in double box plaits on
the outside, as indicated by the holes.
Cut the cape and shoulder-cape with
their front edges placed lengthwise on
the goods; and the collar, with the
back edge placed on a lengthwise fold.
Before cutting the goods be careful to
read "Directions for Cutting," printed
on the envelope.

EASILY TIRED.

Why it is That So Many People Cannot En-
dure More.

There are thousands of people who
find that they cannot do as much work
as they used to, their strength gives
out and they are obliged to stop and
rest. It shows that they have over-
worked, and that their nerve power
and strength is becoming exhausted.

One cannot conceive the great num-
ber of people, who, while not exactly
sick, are yet complaining or ailing in
some way. They do not feel well and
strong, do not eat or sleep well, are
nervous and have no ambition for
work or pleasure. You need not get
spring medicine, Dr. Greene's Nervura
blood and nerve remedy. It will
make you well.

Mrs. Eliza B. McFarland, of 1707
North 9th street, Philadelphia, Pa.,
says:

MRS. ELIZA B. MCFARLAND.

"I suffered for a long time from
nervous prostration. Indeed, the ex-
haustion of nerve power was so great
I became almost helpless, even speech-
less at times. Several doctors were
consulted and many remedies tried,
but without giving me any benefit.

"I was in a most terrible condition
and almost despaired of
ever getting well. I was in a
constant state of anxiety, not
being able to sleep or eat but very lit-
tle. Learning of the great good done
by Dr. Greene's Nervura blood and
nerve remedy, I began its use. I com-
menced to improve from it almost im-
mediately.

"At the end of three months my
nerves were completely strengthened,
I could sleep well and my appetite and
digestion were good. I was, in fact,
entirely cured of all my troubles and
made like a new person, by that won-
derful medicine, Dr. Greene's Nervura
blood and nerve remedy. I cannot say
enough in praise of it and advise
everybody to use it."

People are taking this great medi-
cine everywhere because they see that
everyone who uses it becomes strong
and healthy. This proves to be a po-
sitive and sure cure. Take it now in
the spring, when medicine always acts
the best.

Whether you are sick or well your
system demands a spring medicine and
none equals Dr. Greene's Nervura
blood and nerve remedy. It is the
discovery of the great specialist in
curing nervous and chronic diseases,
Dr. Greene, of 35 West 14th street,
New York City. You can consult him
free, personally or by letter.

"GRANNY'S POCKET."

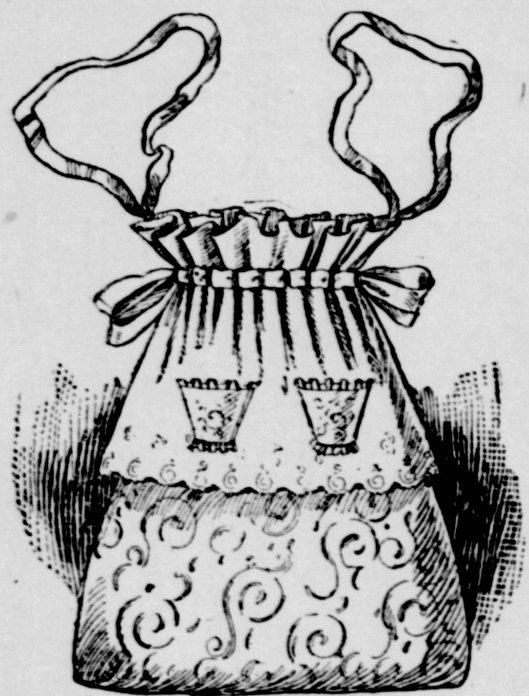

That is the Name of the Novelty Workbag So Popular Just Now.

"Granny's pocket," as it is called, is being carried by all workers in needlecraft, whether their vocation is the darning of socks or the weaving of silken spider webs upon lustrous bits of satin or bloomy velvets. The idea of this cleverly devised workbag is borrowed from a Parisian bonbon bag which was presented, with a cargo of toothsome dainties, to some fair one, who, after she had rifled the pretty trifle of its sugary contents, was supposed to wear it at her side as a receptacle for sewing materials.

Since the granny pocket has made its debut upon this side of the water, however, its duties have been slightly altered, according to Golden Days, which says: In selecting this novelty as a gift the donor fits it out with needles, a gem of a thimble, the finest as well as the tiniest of scissors, along with many more sewing necessities, and so the granny pocket, minus chocolates and conserves, becomes altogether a sewing pocket.

It is sometimes a decided piece of luxury, made of blossom strewn satin, with silky lining, lacey cascades and fluttering ribbons, but for those who are seeking prettiness and practicality at a low price chintz, sateen or one of the gayly plaided ginghams selected, as it makes up very effectively.

The cut of the granny pocket is very similar to that of a bib apron. The lower part of the bag is given a slight stiffen-

A NOVELTY WORKBAG.

ing of cardboard. It is gathered in with drawstrings near the top, like any ordinary bag, and the upper part has the bib form. Flutings of ribbon or the material garnish the edges and bib part of the bag, and there are loops of ribbon at the top, by which it is secured to the side of the wearer.

Two tiny pockets attached to the front are designed to hold the needles, thimble, cotton and scissors when not in use, while the pieces of work are tucked out of sight inside.

Mother finds the granny pocket a useful affair, which enables her to have her sewing in compact form close at hand. The young lady of the household considers it just the daintiest stowaway for her bits of embroidery, and even the small girl, whose extensive doll family calls for countless gowns and wraps and hats, follows in the lead of mamma and big sister, and smuggles her scraps and materials into a miniature granny pocket.

Care of Table Linen.

Never put table linen into soapsuds until it has had all stains removed by pouring boiling water through them. This will remove all stains but iron rust. For that soak in a weak solution of oxalic acid, wetting the spot with cold water. Rub gently between the hands, and it will gradually disappear. If obstinate, repeat the process. Table linen should be rubbed lightly. Blue lightly, but do not starch too much. Stiffened linen is an abomination. Never allow tablecloths to hang on the line in a strong wind. The hems will become frayed at the corners and a general limpness be the result. Nothing is so wearing to all linen and cotton cloth as "switching" in the wind from a clothes-line.

Secret For Ironing Shirts.

A great secret in ironing shirts is to let them be perfectly dry before they are starched. When they are quite dry, rub them well into stiff cold water starch, being particular as to its getting well into every fold of the linen; then wring them tightly by hand (the machine wringer would get out too much of the starch); then either iron them at once or leave them for a couple of hours or so wrapped up in a damp cloth. Do not dry them after the starch is put in before you iron them. If you wish an extra gloss, after they have been ironed once rub the front, collars and cuffs lightly over with just moistened white castile soap and iron them all over again with the glossing iron, if you have one, or with an ordinary rather heavy iron, pressing it well on the material. It is this that gives the chinalike polish observable on perfectly "got up" shirts.

For the cold water starch mix a tablespoonful of white starch with a little cold water, working it with the fingers to get it perfectly smooth and being very careful to remove any—even the slightest—grit. When this is quite smooth, stir into it enough cold water to make up altogether a teacupful of water and 4 drops of turpentine. Then dissolve a small half teaspoonful of borax in a very little boiling water and stir it all into the starch, stirring it also well before using it. If a larger quantity of starch is required, all the ingredients are increased in proportion excepting the turpentine, of which only 2 drops are added to each cupful of water after the first. But remember that the borax must in any case be thoroughly dissolved before the starch is used, or there is a chance of its discolored the linen.

Baked Apple Pudding.

Beat 3 tablespoonfuls of butter and a cup of sugar to a cream, add yolks of 4 eggs, the juice of a lemon, 6 large apples, grated, the whites of the 4 eggs beaten. Pour into a pudding dish, grate nutmeg over the top and bake until done. Serve with cream.

SOME WELL KNOWN FACES.

The Chancellor of Syracuse University. Rev. James Roscoe Day, D. D., the new chancellor of the Syracuse university, is a native of Maine and was born in 1845. He is a typical son of the Pine Tree State, standing 6 feet 3 in his stockings and weighing 250 pounds. He graduated at Kent Hill Wesleyan seminary and Bowdoin college and was appointed Methodist pastor of several different churches in that state. He afterward went to Boston, where he preached in the fashionable First Methodist church. In 1883 he was appointed pastor of St. Paul's church in New York city. He is now pastor of Calvary church in New York.

PARTY LOYALTY

The Janesville Republican, a small organ whose politics are so obscure that the publisher finds it necessary to announce each week that he is still a "republican from principle" attacks The Gazette for possessing enterprise enough to publish a sixteen-page paper last Saturday, and froths at the mouth over the charge that this paper is drifting away from republican moorings. This two-by-nine publisher, whose existence in the Badger state has been a sweat between wind and water, would consult his own interests by sizing himself up politically before dealing with his neighbors. The man who wears on his sleeve the badge "I am honest" will bear watching. The paper that is obliged to protest in each issue "we are republicans" will also bear investigation. Honesty and a good newspaper speak for themselves.

The Janesville Republican is republican only in name. If Publisher Hardy is honest he will say, "I am in the market and am willing for a consideration to sell myself to an organization wholly alien to the republican party. However, as a subterfuge we will sail under the banner of republicanism."

The protest is altogether too gaudy. The republican party has no time to waste on this sort of nonsense. With industries paralyzed and labor seeking in vain for honest toil the question of the hour is not are you a protestant or are you a Catholic, but broader and more significant, are you in favor of a government that provides for and protects American labor.

The Gazette voices republican sentiment, in denouncing as frivolous and nonsensical the issue that threatens the party not only in Janesville but throughout the state. This is not a year for dissension. If the party will stand together, the country can be redeemed from the worst administration that has cursed it in thirty years. If "isms" are to be tolerated another season of democratic mismanagement is certain.

The nominees of the republican party in this city are loyal. The party cares no more for their religious belief than for the color of their hair. It is willing to concede to them as to all others, the constitutional rights of American citizenship. They will be elected because they are republicans, and because a majority of

the republican party is better qualified to administer government, either municipal, state or national, better than the party of "reform". Every republican will support the city ticket this year, because he is a republican from principle believing the party to be right.

WOULD HAVE NO ORDERS.

If the laboring men of this city had voted for their best interests and for the democratic ticket two years ago, none of them would have been driven to hawk their city orders about the streets, hunting for purchasers and disposing of them at ten per cent discount.—Recorder.

Plenty of truth in that paragraph. Indeed if the laboring men of this city had voted the democratic ticket two years ago, none of them would have possessed city orders. The city would have been like other departments of the government under complete democratic control—dead as a smelt. Democrats alone are responsible for shortage in city funds, and no subterfuge the organ invents can disprove it. The people are willing to trust government to republicans, and laboring men, understanding the condition of the finances, are more than willing to work for the city, even if the treasury be empty. Were the democrats in full power the doors of the city tool house would be locked, like most other industrial concerns under control of the democracy, for example the government navy yards, and workshops.

Colonel Breckenridge will discover, if we are not mistaken, that men of his age, education and social standing are not excusable when they deliberately commit crimes against morality. The verdict of the court matters little in such a case; it is the verdict of responsible society that counts, and that was passed against Breckenridge when he confessed his relations with Miss Pollard for a period of nine years.

The United States senate having refused to order an investigation of the sugar stock jobbing charges against certain senators, the whisky stock-jobbers appear to have grown bolder.

Laboring men fully realize the difference between republican and democratic government and will cast their votes accordingly on April 3.

Brother John Wanamaker is evidently not a victim of the hard timer. He has lately invested \$600,000 in Philadelphia business property.

Boss McKane's lieutenant isn't the first New York democrat who has preferred the climate of Canada to that of Sing Sing.

It is a cruel and uncalled for libel upon Mrs. Waite to make her responsible for all the damphoolism of Governor Waite.

The fear of being put to work will deter many from enlisting in Coxey's army.

JERE MURPHY SUGGESTS

Governor Waite ought to try a few thoughts for his mind trouble.

It isn't probable that any jury will find Breckenridge bad enough to be expelled by that congress.

It would bother a reformer to explain why J. Hampton Hoge was bounced by the administration which is retaining General J. Bountiful Doe.

We shall never admit that Governor Peck was so densely ignorant nor so hopelessly imbecile as the democratic organs which excuse the roster job rottenness seek to have their readers believe.

One year of democracy has relieved the people of the feeling of unrest we heard so much about in 1892. It is the feeling of too much rest which is troubling the majority of people at present.

If we reprint the pious conclusions of the Milwaukee Journal correctly, it is the duty of patriotic democrats in the Cream City to vote for the republican candidates and the democratic platform at the approaching election.—Madison Journal.

MANSFIELD HERE TO-NIGHT.

Many Consider Beau Brummell His Most Effective Part.

It is quite unnecessary to state that the appearance of Richard Mansfield at Myers' Opera House this evening, is the theatrical event of the current year. The selection of Beau Brummell from a repertoire of fourteen plays, was most wise. No play which Mr. Mansfield offers is more thoroughly known. The privilege of seeing Mr. Mansfield is due to the liberality of Mr. Shunk, and the engagement exhibits the excellent managerial ability of the present management. Mr. Mansfield rarely comes to a city the size of Janesville, as his engagements extend merely to New York, Chicago, Boston and Philadelphia. Although Janesville does not rank with these cities in population, it was believed to equal them in appreciation. No intelligent citizen of this city should fail this evening to witness the acting of America's representative actor, and by so doing impress upon him how much his coming is appreciated, and make possible another visit in the near future.

TWIST THE FIGURES ON COURT COSTS.

DEMOCRAT CIRCULAR FULL OF FALSEHOODS.

Instead of \$3549.30 the Amount Paid As Clerk's Per Diem Was \$636 —Notes On Local Politics—Treasurer Murphy Again Asked to Define His Position.

This statement is made in a printed circular issued to influence voters in the judicial campaign:

Total amount paid by county treasurer to clerk of court's office, A. W. Baldwin, clerk, for 1893, \$1642.00
Total amount paid by county treasurer to clerk of court's office, E. D. McGowan, clerk, for 1893, \$3549.30

To show how absolutely false this is, the following certificate from the county treasurer of Rock county, is published. It does not include, however, \$441 actually paid to deputy clerks for assistance:

I, A. D. Burdick, treasurer of Rock county, do hereby certify that during the year 1893, the sum paid to E. D. McGowan, clerk of the circuit court, as per diem was \$636.00 and no more.

That the sum paid to him as clerk's fees for 1893 was \$615.21 and no more. That he did not receive of or from Rock county or me a treasurer, of said county in 1893, \$3549.30. Nor any sums whatever for 1893, excepting those above mentioned.

In witness whereof I have hereunto set my hand and official seal at Janesville, Rock county, Wisconsin, this 23d day of March, 1894.

A. D. BURDICK,
Treasurer of Rock Co., Janesville, Wis.

The circular is full of similar misstatements. It declares that every farmer in Rock county pays out about one-eighth of his farm for taxes each year. This will be twelve and one-half per cent. Such a statement is an insult to the intelligent farmers of this county and yet it is a fair example of the falsehood and stupidity of the entire circular.

How some of the figures in the circular were obtained may be seen in the case of the money said to have been paid to E. D. McGowan and his assistants during 1893. The circular states this sum at \$3549.30. How this figure was secured could not be learned for a time as nothing like it appears on the county records. It was finally seen however, that the calculators had arrived at it by the very simple process of doubling \$1774.65, the sum which they say was paid to Clerk McGowan alone during the year. The falsity of such figures is apparent.

A correct list of the figures is known to have been in the Recorder's possession and in Mr. Smith's office so that the doubling of figures must have been maliciously and not mistakenly done.

The following letter has been received bearing on the same subject.

How The Figures Are Mis-stated.

EDITOR GAZETTE—The secret circular now being circulated by the enemies of Judge Bennett says there was "paid to attorneys supporting Bennett for defending criminals (Bennett, judge, 1893) \$1817.50.

The records show that of this sum the sum of \$260 was paid to William Smith, Henry S. Sloan, Joseph B. Doe and others for defending prisoners in the municipal court, not the circuit. Are these attorneys supporting Judge Bennett?

The records further show that \$540 of the \$1817.50 was paid by Columbia county to Mr. Mahoney of Portage for defending Murderer Whalen.

Besides of this \$1817.50, \$300 expense incurred by the county for attorneys in the Cheever case was paid to the county by the defendant as a part of the cost. Take the sum of \$260, \$540 and \$300 making \$1200 from \$1817.50, leaves but \$617.50 actual cost to Rock county paid to attorneys in criminal cases in 1893.

This circular also says the circuit court cost the county last year \$16,000. The records show that of that sum \$5504.04 was for the following:

Sheriffs and deputies, justices, constables, marshals, witnesses in justice's court, change of venue cases, municipal court jurors, municipal court witnesses, municipal court reporter. Take \$5504.04 from \$16,000, leaves \$10495.96, of which sum over \$2,700 was refunded to this county by Columbia county, on account of the Whalen murder case which taken from \$10596 leaves \$7896, considerable over \$1000 of this sum was paid to the county by fines imposed by the circuit court.

ROCK COUNTY.

YOUNG REPUBLICANS AT WORK.

Enthusiastic Meeting in the Municipal Court Last Night.

Young republicans of the city held an enthusiastic meeting last night. A constitution and by-laws were formulated and adopted and these were named as members of the executive committee from the various wards:

First ward—W. A. Jackson.

Second ward—B. F. Nowlan.

Third ward—Beaumont De Forest.

Fourth ward—Fred H. Sheldon.

Fifth ward—George Brink.

Plans were made for a debate April 6 between members of the club, and a resolution expressing enthusiasm over the city nominations was adopted amid applause.

There was music by the Mandolin club and brief speeches by W. T. Vankirk and T. S. Nolan, James A. Fathers, and M. P. Richardson!

WHY DOESN'T MURPHY EXPLAIN?

Voter Is Anxious To Have the City Treasurer State His Position.

EDITOR GAZETTE—Mr. Murphy has been invited to explain his position

so that voters may know whether he is a republican running on the democratic ticket, or a democrat holding office as a republican, but he has not seen fit to do so. Perhaps it has occurred to him that he will get more votes if he is a democrat when he is with the democrats, and a republican when he is with republicans.

If this is really Mr. Murphy's position he is entitled to the support of neither the republicans or democrats. A man who wears his political principles so easily as to be able to shift them so readily, is worthy only of the contempt of both parties.

If Mr. Murphy knows where he does stand, won't he please rise and explain? The voters whom he has asked to support him have a right to know.

VOYER.

GENERAL NEWS OF THE CITY.
Charles Chase.

The bursting of a blood vessel proved fatal to Charles Chase at his home in the town of Janesville. He ate dinner as usual and soon after complained of being ill and continued to fail until six o'clock this morning when death relieved him of pain. He was about forty-five years of age and leaves a wife and four small children.

The funeral will be held Sunday afternoon at 2 o'clock.

Why the Gazette Blushes.

It makes the Gazette blush to publish these things but here goes:

"One of the most valuable exchanges that comes to our office is the Janesville Gazette. Besides being a new county paper, it also takes the place of a city paper, and is fast getting in the front ranks of the newspaper field."—Evansville Review.

Donahoe Will Build In Janesville.

John Donahoe one of the wealthy farmers of the town of Janesville is making arrangements to move into the city this spring. Mr. Donahoe has purchased a lot on Oakland avenue of Daniel Ryan for \$500, and is preparing plans for a \$2,500 residence which he will build this spring.

Times Too Hard To Eat Butter.

The hard times is cutting down the consumption of butter and so reducing the demand and the price. Added to this is the fraud oleomargarine stealing away the market all it can. The farmer is beginning to get squeezed on this account.

Union Meeting of Little People.

The Local Union of Junior societies of the Congregational, Baptist, First M. E. and Presbyterian churches will meet at the Presbyterian church tomorrow afternoon at 4 o'clock. A fine program is prepared.

Trees Would Be Overloaded.

A young man down east hung himself because people found fault with him. If the practice should become general the trees would be full of preachers, school teachers and newspaper men.

Want No Partisan Struggle.

The Monroe Sentinel suggests that there is a decided partisan judge in the Dane county circuit, and the people of Green county don't want any of it in their circuit court.

No Men's Meeting To-Morrow.

There will be no men's meeting at the Y. M. C. A. room to-morrow afternoon on account of the union mass meeting at the Baptist church at 3 o'clock.

Very Conspicuous.

It pays to keep up with the times and always be in line. J. D. Holmes, the tailor man is becoming very popular. He has a stock of ready made clothing, merchant tailoring goods, and gents furnishing goods that is second to none in the state. Nobody who passes along Milwaukee street can fail to notice the front window. It was trimmed by Milo Thayer, especially for Easter, and it represents the day in a most becoming way. It is neat, attractive and shows up the Holmes stock very effectively. The subject is "Easter Greeting" and it reflects much credit upon Mr. Holmes and Mr. Thayer.

Her Store Crowded.

It was impossible to-day to find a busier person in Janesville than Mrs. Woodstock, the milliner. Her place this morning was crowded with customers. Since the commencement of her spring opening she has been rushed day and night almost. The addition in the shop of ladies' furnishing goods, dry goods and fancy work, is proving a valuable acquisition.

NO DAYS OF GRACE
AFTER APRIL 5TH.

LAW ABOLISHING THEM TAKES
EFFECT ON THAT DAY.

Now a New Question Is Raised As to the Effect of the Law on Papers Executed Prior to That Time—Opinion of Attorney General O'Connor.

After the fifth of next April you will have to pay your notes on the day that they come due. Now bankers and other dealers in negotiable paper are considerably troubled over the question as to what effect the law passed by the last legislature abolishing the three days of grace on all notes, drafts, acceptances, bills of exchange, bonds or other evidences of indebtedness, had on paper issued prior to the passage of the law, and further what effect it has on paper executed after the passage of the law but prior to the time it takes effect, which is April 5, 1894. The legislature provided that the new law, which is chapter 87, laws of 1893, should not take effect until one year after its passage and publication, and the inference has been drawn by many that the design of the legislature in postponing its application was to give opportunity that all new paper issued might be executed under an understanding of the new law.

Abolished After April 5.

Attorney General O'Connor has received many inquiries from bankers throughout the state in regard to this question and he gave an opinion on the matter, prefacing it, however, with the statement that it was not a part of his official duties to answer inquiries of this character, and that in doing so he would assume no responsibilities.

An amendatory act was passed changing the wording of the final section, but he thinks it takes effect April 5, 1894. He thinks there can be no question but what these acts cannot apply to any papers executed before the passage of said acts. Whether they shall apply to papers executed between the passage of the acts and the time designated by the legislature for their going into effect, he says, is a question not free from doubt. He is inclined to think that under the decisions of the courts these acts cannot apply to any papers executed prior to April 5, 1894. He cites the case of Cargill vs. Power, 1 Mich. 369, a case covering the same question. He reviews the decision in this case at some length, and gives it as his opinion that "all papers executed before April 5, 1894, carry with them days of grace."

David Powers Gathered in on a Description From Michigan Officers.

Its a cold day when the Janesville police go wrong on a man. Wednesday evening Patrolman Hogan arrested a disorderly drunk who gave his name as Canary, and soon after Chief Acheson received word from Escanaba Michigan, to arrest David Powers. The description fitted so closely that Acheson investigated and when he went to jail he called for David Powers. Silence reigned for a minute and then Canary stepped out, acknowledged that he was the man and said he was willing to return. He is wanted for engaging in a fight.

Requirements of an Optician.

To become a good optician means more than most people seem to realize. To begin with, it requires years of study and no person should be allowed to prescribe lenses who has not had a regular college course; and it should be considered as much malpractice to fit the eye wrong with spectacles as for a physician to prescribe wrong medicines. W. F. Hayes is a thorough and scientific optician, and not a so called one. He has made this profession a study for the past twelve years, and during the last four years has taken instructions under the most scientific oculists that are in existence, and holds the degree of an M. O. from Dr. Julius King, of Cleveland, Ohio; also from Dr. W. S. Fowler, of Chicago; and from the Chicago Ophthalmic College, and has fitted under the personal instruction of each.

Mr. Hayes has had a very large experience, having fitted nearly 4000 within the past three years right in your own midst. Many were cases that had been given up as incurable. If you have defective vision call on Mr. Hayes at F. C. Cook & Co's. jewelry store opposite the post office and consult him, free of charge. He will guarantee satisfactory results in all cases he attempts to fit, and you will find his prices as low as first class work can be done.

A Boston Conundrum.
Fenderson does not often have an idea, but when he does have one he sticks to it tenaciously. For instance, he came out with this conundrum the other evening, with a glow of self-conscious pride:

"Why is an eagle like a man?" After every one had given it up he explained, with a chuckle: "Because it is bald-headed."

"But," said somebody, "all eagles are not bald-headed." "That's just it," responded Fenderson; "neither are all men bald-headed—see?"—Boston Transcript.

We have a nice genteel business in the heart of the city; no such chance ever before offered, for a good man and wife to earn easily a good living. We will exchange it for a good house and lot, and pay the difference in cash.

We have excellent homes at \$500, \$450, \$1,000, \$1,200, \$1,500; (this one has over 2½ acres of land right in the city, with good house, barn, well, cistern, fruit, &c.); \$1,750 \$2,000 and so along up to \$10,000.

We have seventy acres good land, but cheap, to exchange as part payment on a good home. Land free and clear and will pay some cash difference on home that suits.

We have some money to loan in sums to suit. We want one first class loan of \$1,000 and an other of \$1,500. Five years at per cent.

BRIEF POINTS ON
SILK PETICOATS.

SILK PETTICOATS AND COTTON PETTICOATS—MOHAIR SKIRTS.

The Various Ways of Cutting and Making Petticoats Plainly Described—Some Desirable Skirt Patterns Explained—Helpful Hints Concerning Materials.

It went the rounds some months ago that the silk petticoat had had its day. Still those who can afford them indulge in the luxury. White skirts are of course worn with wash dresses in summer. The Household gives the following patterns and directions for making skirts. It says: These are cut with gores. A breadth of material is folded in the center, and a rather narrow front is made, the top measuring 10 inches less than the bottom. Two side gores will be required

PATTERN FOR SKIRT.

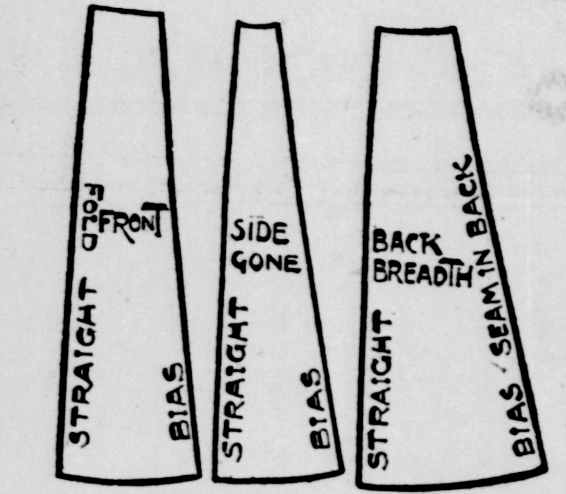

on each side. Fold a breadth of material diagonally, so that the wide side will be seven inches wider than the other. This will give two gores exactly the same.

There are various ways of cutting the back. Some cut two gores and join them in a bias seam. If this is done, a piece of tape should be sewed into the seam, or a sagging will ensue.

The best way for cutting cotton skirts is to simply use two straight widths for the back. Another way is to put a full ruffle about half way up the back of the skirt, this flounce really forming a part of the skirt, as the under breadth terminates where this joins. White skirts for service are trimmed with ruffles of the same material hemmed and tucked, or with plain ruffles and embroidered ones. A good quality of lamborg is used if something better is desired, or rather something that looks prettier.

Gingham, holland and mohair are all used for serviceable skirts. Black sateen has not yet had its day and is pretty and neat looking. As far as cleanliness goes, skirts that will wash are far preferable. For those who can afford them are the hand embroidered skirts. These are not very elaborate, a prettily scalloped edge with a narrow working above being considered good form. Some very nice skirts have a deep hem wrought with hand embroidery.

The silk petticoat is cut in five pieces—a front breadth, two side gores each side and two back gores, with seam in

SILK PETTICOAT PATTERN.

the back. The rule given for cutting above is the correct one, the back breadths being cut bias in silk skirts. Various silks are used, but the heavy American silk stands out and keeps the gown in the approved shape. These skirts are deeply faced from 12 to 20 inches with linen stiffening. An outer facing may be put over this if desired. Use a bias velvet for "braiding" the bottom and do not use pink ruffles. A plain hem is much neater and does not fray as quickly. In making a silk petticoat a casing is run through the back gores, and a tape holds them in place. A belting which flares is now made for skirts. This allows for the little spring over the hip.

Delicious Coffee Cake.

The following recipe is for a coffee cake which is inexpensive, easily made and is not so rich that it will injure even the weakest digestion: A cup of granulated sugar, 2 cups of flour, a half cup of butter, a half cup of New Orleans molasses, a half cup of cold coffee, a cup of raisins with the seeds removed, 2 eggs, a teaspoonful of cinnamon, a teaspoonful of mace, a teaspoonful of cloves, a teaspoonful of baking soda.

Take a large earthen bowl and put the sugar and butter in the bottom, and stir them into a cream; then add the eggs and beat these till they blend nicely with the butter and sugar. After this add the molasses; then dissolve the soda in the coffee and pour it in the bowl. Now put the powdered spices in and stir till they are nicely mixed with the other ingredients. Chop the raisins quite fine in a chopping bowl, sift a little flour over them, and stir them about in the flour so they do not stick together; then put them in the cake bowl. Last of all, stir in the flour. Put the mixture in a large cake pan or in two medium sized ones, and bake in a slow oven. Butter the inside of the pans well before putting the cake mixture in or line with tissue paper well buttered.

Try, Try Again.

Keeping a dish of water on the back of a tight stove to purify the air.

Darning gloves in buttonhole stitch, repeated till the hole is filled up.

Sprinkling the inside of damp gloves with violet powder.

A Contractor's Advice.
Dullam's German Medicine Co.—Gentlemen I take great pleasure in testifying in behalf of Dullam's German Blood, Liver, Stomach and Kidney Cure. I can safely say that I never took such medicine as that to cleanse the stomach and kidneys. I was suffering for years with biliousness, indigestion and loss of appetite and sleep. One bottle did for me more good than six months' other treatment, and I feel it my duty to testify in its behalf, so others may try it and get cured.

True Love.

Claire—Did you say that homely Miss Smith received twenty-seven proposals during the summer?

Maria—Yes; but I hear now that it was thirty-seven.

Claire—Goodness gracious! She must be awfully rich.—Godey's Magazine.

Life or Death?

It is of vital importance that it should be understood by persons whose kidneys are inactive that this condition of things is finally indicative of a state of the organs where life hangs in the balance. Bright's disease, diabetes, albuminuria are all diseases of a very obstinate character in their mature stage, and all have a fatal tendency. They often baffle the most practiced medical skill, and the most approved remedies of materia medica. But opposed at the outset—that is to say, when the kidneys begin to discharge their function actively, with Hostetter's Stomach Bitters, the dangerous tendency is checked. Very useful, also, is this household medicine for those ailments of common occurrence, constipation, biliousness, dyspepsia and nervousness. It is a safeguard against malaria and averts chronic rheumatism.

Whenever a cold snap visits Fort Myers, far down in sub-tropical Florida, the inhabitants, who have no method of heating their houses, come out into the streets and keep warm by sitting around great fires of wood. The cold snaps are rare, but when they come everybody, even the Northern visitor, is thoroughly uncomfortable.

Did you ever notice the mint mark on silver coins? The mark is always just below the eagle's tail on the reverse side. The coins which come from the Philadelphia or Washington mints have no mark at all. The coins marked "O" are from the New Orleans mint; those marked "S" are from the San Francisco mint, and those marked "C. C." are from Carson City.

There's a bright little girl who brightens an Atlanta, Ga., home with the sunshine of her childish face, who is accredited with quite an amusing saying. There was a young newspaper man in the house to whom she was duly presented, and then asked: "What do you think of newspaper men, Margie?" "I don't know," she faltered shyly. "I see so many newspaper men tryin' to sell papers down town, I dits all mixed up."

Mule Bill Opponents Claim It Is Un-constitutional.

DES MOINES, Iowa, March 24.—Some of the opponents of the Martin mule tax bill, which passed both houses of the legislature and will soon become a law, are raising the question of the constitutionality of the measure. They claim it is a tax law that is not uniform in its application and that it is in direct contravention of the constitution in that respect; also that the local option features of it are not according to the constitution. Attorney General Stone was asked his opinion in regard to the constitutionality of the bill. He said he had not carefully studied all the details of the bill, but he was sure the principle of it was in entire accord with the provisions of the constitution.

Populists and Prohibitionists Fuse.

SPRINGFIELD, Ohio, March 24.—L. B. Logan, chairman, of the prohibition state central committee, says that it is more than likely that the prohibitionists and populists, who each hold a state convention at Columbus June 3, will nominate a joint ticket and adopt a common platform.

Minister Thurston Makes Denial.

WASHINGTON, March 24.—Minister Thurston says he has no knowledge of a letter of recall or that the Hawaiian government was anxious for his presence to assist in transferring it into a republican institution. He declined to discuss the probability of a change in the form of government, saying that he had no recent information concerning the political situation in the islands.
